ENKO GROUP

HANDLE FREE EXTRUSION

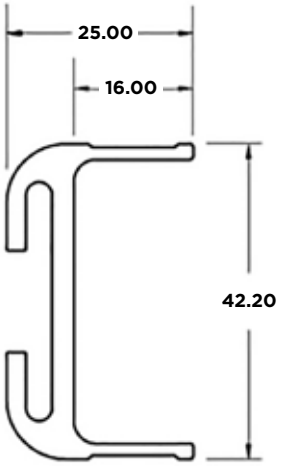
SMART KITCHEN SYSTEMS MADE EASY

HANDLE FREE EXTRUSION

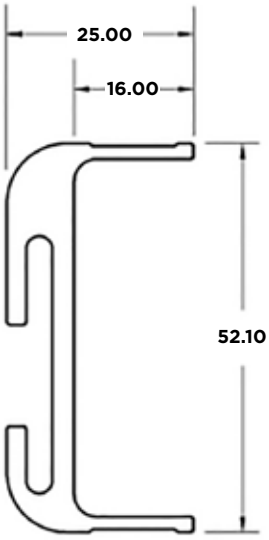
Enko's #130 extrusion doubles as a handle free solution and a cabinet top support rail. It comes in different finishes, two different sizes, has a number of fixing options for easy installation and fitted end caps to provide a professional finish.

SIZES:

42mm
For under benchtops



52mm
For between drawers



REV 2 30/09/19

AVAILABLE FINISHES

Standard finishes, ex Enko stock, are Natural Silver (anodised finish), Satin Black and Appliance White (both are powder coated finishes).

Natural Silver

Anodised

Satin Black

Powder coated

Appliance White

Powder coated

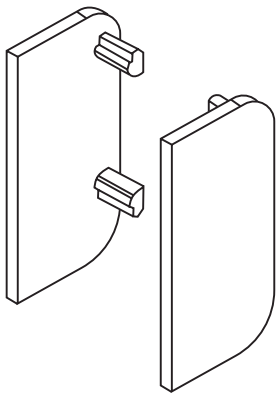
MADE TO ORDER COLOURS

Other anodised finishes and powder coated colours are available on request. Such requests will be priced and quoted individually. Minimum quantities may apply, and prices will reflect the additional work that goes into meeting this made to order requirement. Lead times will vary depending on the job quantity, stock levels and outside providers processing times.

Alternatively, we can supply raw unfinished extrusion and end caps and you can arrange to colour it yourself using local powder coaters or anodisers.

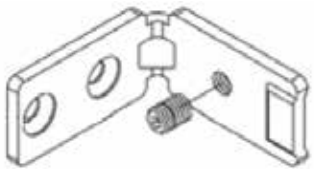
END CAPS

Supplied in pairs, these end caps are fitted into the ends of the extrusion to provide a professional finish. They are coloured to match the extrusion finish.



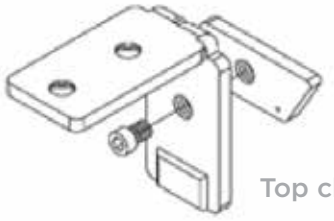
FIXINGS

Primary fixing

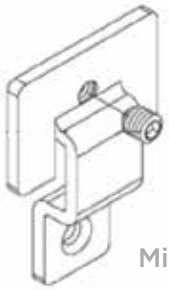


End clip

Secondary fixings if required

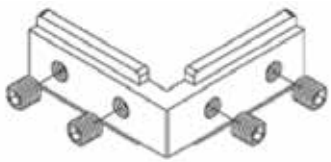


Top clip

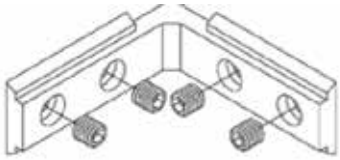


Middle clip

Corner fixings for exposed joins



Internal Corner clip A



External Corner clip B
